

Cargo connect, count and color

The Port of Redwood City moves over 2.65 million metric tons of cargo a year!

Build a cargo ship by connecting the dots from 1 to 17 then help us count some cargo by coloring in **4 red boxes**, **6 blue boxes** and **8 green boxes**.

Mix it up and make it colorful!

How many total cargo boxes are on this ship?

Word search

Put your skills to the test and try to find the various words we use and know around the Port! These words can be up, down, forward and backwards! Ready to get started? Grab a highlighter or writing utensil to mark words you've found.

A walk on our waterfront

The Port of redwood city features over a mile of public waterfront access, parks and picnic areas. What do you think you'll see out on our waterfront? Maybe a cargo ship unloading on our docks or a few cranes flying by! Draw the things you will see!
